### The Riding

Much of the riding is at a tölt, which can be fast so you need to be a confident rider able to adapt to different riding styles. General fitness is as important as riding experience due to the long hours in the saddle.

Riding in Iceland is a unique experience - an opportunity to ride strong, willing horses over exciting and adventurous terrain. Riding an Icelandic horse is not only tremendous fun, it's also a great way to experience the natural beauty of Iceland; snow topped mountains, the largest glacier in Europe, volcanoes, thundering waterfalls and striking lunar landscapes.

The Golden Circle takes you through the lovely countryside of southern Iceland. As you ride towards the magnificent waterfall at Gullfoss and the hot springs area of Geysir your guides lead spare horses for you. The last two days of the ride are more challenging as the spare horses will now travel with you as a loose herd as you cross the highland moor of Hrunaheði.

This tour is ideal for families and for those who do not have the required riding experience for the highland tours.
